

PROLIFT N

UNIQUE SAFE FOLIAR NITROGEN AND SULPHUR

Reliably boosts protein content in milling wheat. Contains 1.6 g/L **dimethyl sulphone** to increase sulphur uptake.

PROLIFT N is a highly efficient foliar nitrogen product that contains ammonium thiosulphate combined with a novel biostimulant, dimethyl sulphone to increase sulphur uptake and enhance protein quantity and quality.

**Contains dimethyl sulphone
to increase sulphur uptake**

26% N + 19% SO₃ W/v

- Boosts protein formation and nitrogen metabolism
- Formulated to reduce gaseous losses of nitrogen as ammonia
- Rainfast in 30 minutes

HEALTH & SAFETY INFORMATION

H319: Causes serious eye irritation.

P264: Wash thoroughly after use.

P280: Wear protective gloves/protective clothing/eye protection/protective footwear.

P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P337+P313: If eye irritation persists: Get medical advice/attention.

USAGE

Milling wheat dose rate – 50 L/ha
Recommended water volume 100 – 150 L/ha

PROLIFT N is used to boost protein levels in wheat varieties at the milky-ripe stage of crop development. Its effect is diluted in higher biomass/yield potential crops therefore use appropriate dosage.

DIRECTIONS FOR USE

Ensure spraying equipment is clean and free of residues.

Part-fill spray tank with water.

Begin agitation and slowly add required quantity of **PROLIFT N** and the balance of water.

Maintain agitation while spraying.

DO NOT allow mixture to stand without agitation.

For optimum uptake it is best to apply **PROLIFT N** to a dry leaf in cooler conditions.

COMPATIBILITY

PROLIFT N is compatible with a wide range of agrochemicals, please contact your distributor for the latest information.

STORAGE

Keep in a cool dry chemical store out of the reach of children and livestock.

Use **PROLIFT N** within 12 months of purchase.

Protect from frost.

CONDITIONS OF SUPPLY

IntraCrop guarantees that this product is supplied according to specification and is suitable for the purposes described. Used according to directions and following good agricultural practice we are confident your crop will benefit. However, due to the complex inter-relationship between the environment, soil, crop varieties and other inputs we cannot accept specific responsibility for a perceived failure in performance. If you have suggestions for improvement or are dissatisfied in any way please contact us.

1250kg 1000L

STATUTORY FERTILISER DECLARATION

Contents	% W/w
Total Nitrogen (N)	21.0
Ureic	10.0
Nitric	4.2
Ammoniacal	6.9
Total Sulphur (SO₃)	15.2
As elemental Sulphur (S)	6.1

PRECAUTIONS

Do not apply to crops suffering from stress.

To avoid scorch; do not apply in strong direct sunlight, high temperatures, and to de-waxed crops following prolonged heavy rainfall, frost or high winds.

Do not treat crops in frosty conditions, or in the rain or if rain is forecast.

Do not contaminate ponds, waterways or ditches with chemical or used container.

Wash out container thoroughly, empty washings into spray tank and dispose of safely.
